

International Student Financial Statement

International applicants who plan to apply for an F-1 visa are required by the U.S. Immigration & Naturalization Service to provide the university with a financial statement and supporting documents of financial ability for the first year of study before an I-20 can be issued. Two original sets of supporting documents should be obtained. Attach one set to this application and use the other when applying for a visa at the U.S. Embassy or Consulate. In addition to supporting documents, the applicant and parents or sponsors must complete and sign the "Sources of Funds" section of the Financial Statement. If this portion of your application is incomplete, we will **not** be able to complete your file.

The following is a general estimate of annual expenses an international student should be prepared to meet. In addition to the items listed below, international applicants should carry health insurance, and be prepared to pay for return transportation expenses and additional emergency expenses.
