MOVING SERVICES CUSTOMER CHECKLIST

Use this checklist to assist your planning and avoid moving day stress. Central Services conducts a pre-move site inspection to determine if the move will be completed in-house or contracted out after receiving a Move Request Form. The completion of this form is the responsibility of the office that is moving. It is intended to assist you with the planning and execution of your move. Please let Central Services know of any concerns or special handling considerations you may have.

Questions? Call Central Services at extension 1478 or visit <http://www.aug.edu/cso/MovingServices.html>

ALL MOVES

4-6 WEEKS PRIOR TO MOVE

Complete Request for Moving Services form. Central Services will visit to determine if move will be conducted in-house or contracted out and schedule a move date. <i>Go to: http://www.aug.edu/forms/move_request.pdf</i>	<input type="checkbox"/>
Designate a move contact. This contact person must be on site during the move and should be aware of where items will be placed in the new location.	<input type="checkbox"/>
Work with Central Services to obtain a quote from the moving company if the move has been contracted out. Complete a Peoplesoft Requisition for the quote for the moving company.	<input type="checkbox"/>
Receive appropriate approvals. Intra-Departmental Moves require approval from your Vice-President, Inter-Departmental Moves require approval from the FAST committee.	<input type="checkbox"/>
If you are moving any device that requires electricity complete a Physical Plant Work Request listing the items so that the Physical Plant electricians can assess the new space to determine if enough power is available. <i>Go to: http://www.aug.edu/forms/asupp-004.pdf</i>	<input type="checkbox"/>
Determine if you have any very specialized equipment (e.g. piano, lab equipment) or <u>any</u> type of chemical that may require special attention. Please contact Physical Plant and/or Moving Services early in the process if you need to move these items.	<input type="checkbox"/>
