

Internet Explorer 7 - Quick Reference for Instructor Stations

Note: Function key **F11** will hide/reveal the toolbars so you can see more of a page and less of the program.

	<p>Back and Forward Arrows moves you from visited page to visited page within the CURRENT TAB.</p>	 <p>Address bar for typing in location (URL) you want to see.</p>
	<p>Menu Bar – File, Edit, View, Favorites, Tools, Help</p>	 <p>Green arrows = RELOAD page Red X = STOP loading this page.</p>
<p>USING TABS FOR INDIVIDUAL PAGES</p>		
	<p>Current Tab displays page title in pale blue. Other tabs (other pages) display in gray.</p>	 <p>Create a NEW tab by clicking the small tab on the far right side of the other tabs. <i>This allows you to open a new page without closing the old one.</i></p>
	<p>Four tiny squares – see miniature pages to quickly flip from one page to another.</p>	 <p>Inverted triangle shows list of tabs (pages).</p>
<p>ON THE RIGHT SIDE OF THE SCREEN</p>		
	<p>-Home Page -Add multiple home pages -Change or remove a home page</p>	 <p>Print, Print Preview and Page Setup</p>
	<p>Page includes Save AS and Text Sizing</p>	 <p>Tools includes "Internet Options" and Toolbar controls.</p>
<p>ZOOM, FAVORITES, AND HISTORY</p>		
	<p>Zoom Controls in the bottom right corner let you make a page larger or smaller.</p>	 <p>Yellow Star = Display list of my "Favorites" a.k.a. Bookmarks Yellow Star with green Plus sign = Add this page to my favorites.</p>
	<p>Green arrow transforms this box from a "fly out" to a fixed column.</p>	 <p>History shows me a listing of pages I've seen.</p>
	<p>The Quick History pull down indicator at the end of the address line shows the latest page addresses that were typed in.</p>	
<p>CAUTION: SECURITY BAR</p>		
<p>Watch out for the SECURITY BAR.</p>		
<p>A pale yellow stripe under the tabs means something got blocked and needs your permission to continue.</p>
