If you are traveling with children, SuperShuttle strongly recommends the use of child safety seats. While laws vary from state-to-state, we at SuperShuttle support the strongest safety standard by recommending that small children 5 years and under be secured in a child restraint seat for transportation. Additionally, SuperShuttle does not provide child restraint seats. It is the responsibility of a child's parent or caregiver to provide the Child Restraint System when transporting children in a van, sedan or taxi cab
