

## **Student Presentation Cart Library Student Group Study Room**

**Justification:** This presentation cart would facilitate collaborative student projects requiring access to a computer with presentation software. The library already houses the Faculty & Staff Training & Development Center. Currently students needing this type of facility are restricted by Media Services hours of operation; having this cart in the library would provide access for 85-1/2 hours per week and have the added advantage of also providing access to library resources which groups might need in the development of their projects.

### **Cost and Purchase Information:**

Computer Cart:

Company Name: Tuffy

H. Wilson WT34E

All Tuffy utility carts are made from a durable injection molded thermo-plastic that won't chip, warp, crack, rust or peel. They are designed to roll easily over tile, carpet, cement and hardwood flooring by utilizing their four 4 ball-bearing swivel

casters. The WT34E cart has two 18"D x 24"W shelves, each with a ¼" safety retaining lip. Included as standard equipment is a 3-outlet UL/CSA electrical assembly, complete with 15' cord and cord management wrap for easy storage. This cart is primarily used for overheads and LCD projectors.

Your Price: \$70.00
