

Augusta State University Student Technology Fee Proposal Form

Please complete the following information for projects to be submitted to the Student Technology Fee Committee.

Title of project: Safari Tech Books Online
Requestor's name and email: Camilla B. Reid
Department/Organization: Reese Library
Date: October 25, 2004
Estimated Project Cost: \$2,600
Brief summary of the project:

This collection from leading Information Technology publishers enables two simultaneous users to search the full-text of up to 50 current information technology books. Because of the rapid pace of change in information technology, it is difficult to keep up-to-date printed books in the Library. The books accessible through STB can be changed at any time.

Estimated cost for years 2 and 3: \$2,770, \$2,900

Will this project become a recurring expense? Yes No

If the answer is yes, what are the plans for funding recurring expenses?

We will continue to request STF funds for this resource. The alternative is for one of the academic departments to use a portion of its library allocation for this subscription.

Could a portion of this project be funded and still be viable? If the answer is yes, please explain and prioritize: Yes No

We could reduce the access to one simultaneous user for a small reduction in the subscription fee. It would cost more to purchase the 50 current books than to subscribe to their content. Also, the titles to which students have access can be changed at any time.

Please estimate the approximate number of students that will benefit either directly or indirectly from this project. 1000

How does this project support academic/instructional activities?

This resource is useful for primarily for math and computer sciences students, but also has applications in business and education.

If the submitting organization is an academic or administrative department, is this project included in the unit plan? N/A Yes No
