

Augusta State University Student Technology Fee Proposal Form

Please complete the following information for projects to be submitted to the Student Technology Fee Committee.

Title of project: MiniTab License Fee
Requestor's name and email: Sam L. Robinson, srobinson@aug.edu
Department/Organization: Mathematics and Computer Science
Date: March 8, 2004
Estimated Project Cost: \$1400.00

Brief summary of the project:

The Department of Mathematics and Computer Science currently pays a yearly license fee for the MiniTab software. The software is used in several of our courses, but 99% of the students affected by its use are in the service course MATH 2210 (Elementary Statistics), that is, they are not mathematics or computer science majors. Students from applied sciences must be exposed to statistical software and MiniTab is the package of choice at ASU as it is in many universities throughout the nation. We feel that the student technology fee, rather than the department, is the appropriate funding source for this recurring cost.

Estimated cost for years 2 and 3: \$1400.00

Will this project become a recurring expense? Yes No

If the answer is yes, what are the plans for funding recurring expenses?

Student Technology Fee.

Could a portion of this project be funded and still be viable? If the answer is yes, please explain and prioritize: Yes No

Please estimate the approximate number of students that will benefit either directly or indirectly from this project. 300/year directly. ? indirectly.

How does this project support academic/instructional activities?

MATH 2210 is populated mainly by biology, education, and social science majors whose need for statistical training is unquestionable.

If the submitting organization is an academic or administrative department, is this project included in the unit plan? N/A Yes No
