

Augusta State University Student Technology Fee Proposal Form

Please complete the following information for projects to be submitted to the Student Technology Fee Committee.

Title of project: Biological Field Data Collection
Requestor's name and email: Bruce Saul bsaul@aug.edu
Department/Organization: Biology
Date: October 27, 2004
Estimated Project Cost: \$5500.00
Brief summary of the project:

Many biology students are graduating from Augusta State University with an employment goal of joining a natural resources agency or attending graduate school. While at ASU, these students have the opportunity to participate in practical field experiences in many of our courses. Employment or graduate school opportunities often require applicants to have experience or familiarity with most modern field biology techniques and use of the associated equipment. We have successfully prepared students to enter these fields and obtain their goals with one exception, the use of modern data collection equipment like the field tablet computer. We would like to purchase one for our classes.

Estimated cost for years 2 and 3: none

Will this project become a recurring expense? Yes No

If the answer is yes, what are the plans for funding recurring expenses?

Could a portion of this project be funded and still be viable? If the answer is yes, please explain and prioritize: Yes No

Please estimate the approximate number of students that will benefit either directly or indirectly from this project. Any student interested in field biology.

How does this project support academic/instructional activities?

Yes, it meets the goals of our Biology Department Unit Plan.

If the submitting organization is an academic or administrative department, is this project included in the unit plan? N/A Yes No
