

Augusta State University Student Technology Fee Proposal Form

Please complete the following information for projects to be submitted to the Student Technology Fee Committee.

Title of project: Symplicity Career Software
Requestor's name and email: Julie Goley, jgoley@aug.edu
Department/Organization: Career Center
Date: October 17, 2007
Estimated Project Cost: \$6000

Brief summary of the project:

This allows our office to track student engagement in the services we provide, not only raw numbers of student participation, but longitudinal data about a student's level of engagement in across all of our services. This software is part of a larger Student Affairs management program it can offer. The Career Center wants to pilot this project to see if it can be used effectively in other student services offices in the future. SACS cited Student Services in its last visit indicating our division needed stronger assessment measures. This pilot would allow one office to test this to determine if it is feasible. The program provides more "comprehensive data" than our campus id card offers.

Estimated cost for years 2 and 3: 3,000

Will this project become a recurring expense? Yes No

If the answer is yes, what are the plans for funding recurring expenses?

It would be renewed and proposed again only if it proved to be effective after this year. We would also try to initiate monetary support for it to be tied to ongoing budgetary needs of the office/division long term.

Could a portion of this project be funded and still be viable? If the answer is yes, please explain and prioritize: Yes No

Please estimate the approximate number of students that will benefit either directly or indirectly from this project. Estimated data collection on 3500 individual users

How does this project support academic/instructional activities?

Tracks the level of student engagement in career development programs designed to complement the academic components of the university and measure what resources are most effective at meeting campus needs.

If the submitting organization is an academic or administrative department, is this project included in the unit plan? N/A Yes No
