

Getting Started in MyMathLab for MATH 1111 Students at Augusta State University

1. Obtain a MyMathLab code for WebCT.

- ***There are three ways to obtain a MyMathLab code for WebCT. Make sure you compare prices.***
 - Purchase the textbook for MATH 1111 College Algebra from the ASU bookstore; it contains a MyMathLab code for WebCT. In addition to the hardback textbook and online homework, you will have access to the e-book for this course.
 - You may purchase a MyMathLab code for WebCT, which is contained in the MyMathLab for WebCT Student Access Kit, from the ASU bookstore. In addition to the online homework, you will have access to the e-book for this course.
 - You may purchase a MyMathLab code online within GeorgiaVIEW Vista. In addition to the online homework, you will have access to the e-book for this course.
- ***If you purchase a used textbook, the code will not be included and must be purchased separately.***
- ***If you purchased and used a MyMathLab code for MATH 1111 during or after fall 2009 at ASU, you are not required to purchase a new code. Your code was saved in GeorgiaVIEW Vista; therefore, you may begin working in your current course.***
- ***If you purchased a MyMathLab code for MATH 1111 during fall 2008 or spring 2009 at ASU, you need to contact the ASU MyMathLab coordinator at asumathlab@aug.edu.***
- ***If you do not have a MyMathLab code, you may request a 15-day grace period. Once you have followed the directions and you are on the screen that requests a code, select Request Grace Period.***

2. Go to the ASU home page.

3. Click on the letter **G** from the alphabetical index.

4. Click **GeorgiaVIEW Vista**.

5. Log in (Submit).

- If necessary, click **Run** for the certificate.
- Your username is the same as your pipeline username. If you have used this system before, your password remains the same. If you have not used this system before, your password is your six-digit birthday. Once inside GeorgiaVIEW Vista, use the link at the top of the page to change your password and set a “secret question/answer” to help later if you should forget your password.

Note: Sometimes the first log-in fails and you are linked to a page containing a list of universities. If this should happen, select Augusta State University. Try to log in again.
