

Redoing a Homework Exercise That is Marked With an x.

- If a homework exercise is attempted and answered incorrectly three times, MyMathLab marks the exercise with an x.
- To remove the x and redo the exercise, click the **Similar Exercise** button.

The screenshot shows the MyMathLab interface for a homework assignment titled "Homework: 1 Absolute Value Equations". The exercise is "Exercise 1.6.9" and is marked with a red 'x' on the progress indicator. The exercise score is 0 of 1 pt, and the assignment score is 0% (0 of 6 pts). The problem asks to solve the equation $|4x + 1| = 4$. The user has entered the answer $x = \frac{3}{4}, -\frac{5}{4}$. The interface includes a calculator on the left, a sidebar with buttons for "Help Me Solve This", "View an Example", "Textbook", "Ask My Instructor", and "Print", and a bottom bar with "All parts showing", "Similar Exercise", and "Save" buttons. A yellow arrow points from the text above to the red 'x' on the progress indicator, and another yellow arrow points from the text above to the "Similar Exercise" button.
