

Dr. Norman Prinsky  
Humn. 2001D

Class Work on Shakespeare's Play *Hamlet*

1. The class will divide up into separate teams, and each team will get to a computer, and then download the detailed Notes and Questions on Shakespeare's *Hamlet* for Humanities Teams. The team should compose and then word process a report on the questions indicated and use MLA format for the first page, except that all the names of the team members contributing to the report will be listed. List only members of the team actually present for the lab. Use single spacing, since all the answers will be merged into one document. Use the default setting of campus computers to 1-inch margins and Calibri 11 font. The following is a sample:

Hal Toliver, Jim Calderwood, R.L. Montgomery
